Register now on the Quest website > Events > Sig Meetings & Calls > Quarterly SCM SIG Call-In Meeting.

QUEST EXPERIENCE WEEK – DON'T MISS OUT!

What is Quest Experience Week?

QXW is four jam-packed days of digital education designed to provide both strategic insight and how-to-education for Oracle users of all levels – **for free!**

Each day is dedicated to a different product and begins with a keynote followed by afternoon breakout sessions. Attendees can register for as many sessions as they like and experience conference-quality education without the travel and financial commitments of a face-to-face event. Conference-quality education, from the comfort of your desk!

Cloud Day: November 12

Database Day: November 13

PeopleSoft Day: November 14

JD Edwards Day: November 15

Daily session information coming soon – check the QUEST website for updates

COLLABORATE SESSIONS

Thank you to all who have submitted presentations for Collaborate 2020.

The Quest Knowledge committee has been meeting to weed thru the submissions and selecting those best meeting the needs and wants of the Quest members.

We have received many great sessions covering topics of great interest, including several new topics never presented before.

Be sure to go on-line, get registered and plan to become impressed with all that Collaborate 2020 has to offer.

COLLABORATE 20!

Collaborate 20 returns to Las Vegas Nevada at the beautiful Mandalay Bay Resort and Casino.

Quest and other Oracle partners will be providing another week of world class education and networking opportunities.

Sign up for Collaborate 20 updates on the QUEST website to stay informed and up to date.

Your SCM SIG Leadership Board,

Dan Rotermund, President & Communications Coordinator
