Safe Harbor Statement

The following is intended to outline our general product direction. It is intended for information purposes only, and may not be incorporated into any contract. It is not a commitment to deliver any material, code, or functionality, and should not be relied upon in making purchasing decisions. The development, release, timing, and pricing of any features or functionality described for Oracle's products may change and remains at the sole discretion of Oracle Corporation.

PeopleTools initiatives . . .

Optimize the User Experience to help Users Be More Productive

Isolate Customizations to make Applying Change Easier

Migrate to the Oracle Cloud to Gain Cost Benefits

Automate Lifecycle Processes to make Adoption of New Features Easier

Enable Emerging Technology to Add New Technology Driven Features

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

Optimize the User Experience

A Complete UI Solution Now Includes:

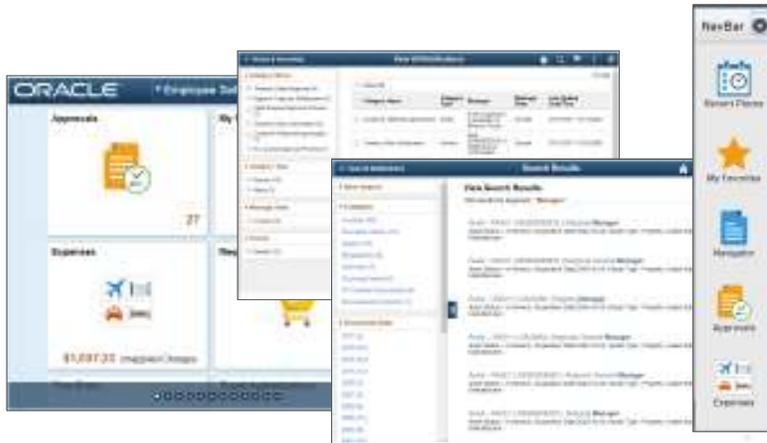

- Mobile
- Fluid
- Classic Plus
- Guided Navigation
- Manager/ Employee/ SME Views
- Analytics
- Notifications
- Integrated Search
- Related Actions and Content
- Dynamic Tiles
- Personalization

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. | Confidential – Oracle Internal/Restricted/Highly Restricted 5

Optimize the User Experience

Use the Fluid UI Features to provide a rich, productive UI for your users

- Homepages
- Dashboards
- WorkCenters
- Activity Guide
- Notifications
- NavCollections
- Simplified Analytics
- Pivot Grids
- Related Content
- Related Actions
- Tiles/Dynamic Tiles
- NavBar
- Personalization
- Search
- Notifications

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. | Confidential – Oracle Internal/Restricted/Highly Restricted 6

Optimize the User Interface – Harmonize

- Migrate to Classic Plus – Common UI look across the entire PSFT applications
- Branding - Give the application your company's look
- Encourage Personalization – Many options in Fluid for personalizations

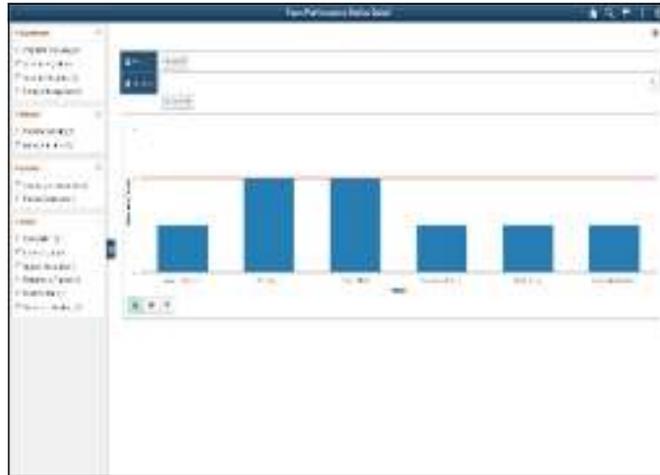

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. | 7

Personalized Analytic Notifications

- Changes the way users interact with system
- System alerts you to conditions that need attention
- Users set thresholds in Pivot Grids
- Alert generated when the threshold criteria are met

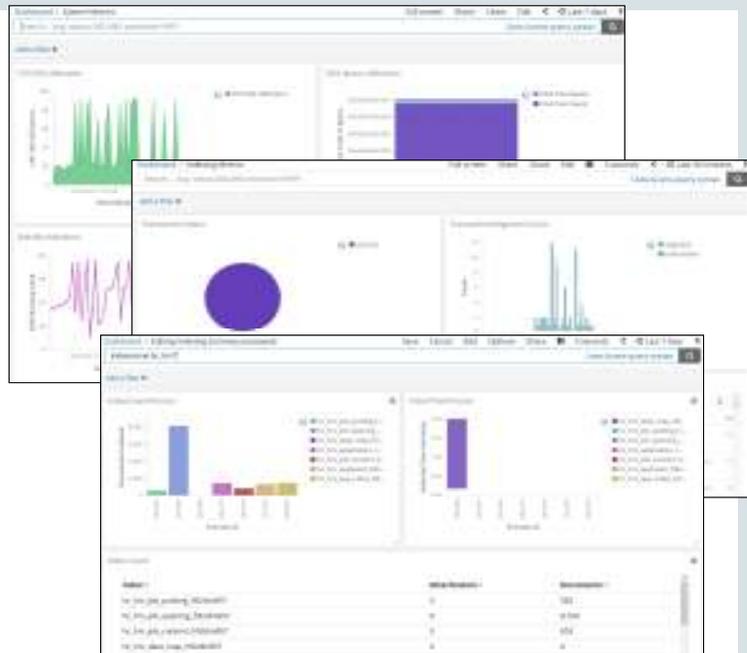

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

Kibana Visualizations

- Open source browser based data visualization tool
- Includes three delivered admin dashboards:
 - System metrics
 - Indexing metrics
 - Indexing summary
- Customers can create their own dashboards
- Used to manage Elasticsearch infrastructure
- Possible application visualizations in future

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

Optimize the User Interface - New in 8.57

New in 8.57

- Personalized Analytic Notifications to alert users when thresholds are reached
- Multi-facet select, new version of Elasticsearch and delivery of Kibana for real-time analytics and search metrics
- Unified display of related contents and simplified analytics
- Ability to add simplified analytics to the NavBar and Dashboards
- Improved personalization of tiles when on Homepage, NavBar or favorites
- Fluid Grid improvements including Find, Download to Excel and Sort
- Improved Branding Framework with customer banner above the menu

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

Isolate Customizations

- **Event Mapping**
 - AppClass methods run before or after built-in PeopleCode events
 - Complete access to Component Buffer
 - Assigned through existing Related Content Framework
- **Page Composer/Form Builder**
 - PeopleTools provided utilities to build Fluid pages
 - Limited in scope but simple for basic forms and approvals
- **Page and Field Configuration**
 - Metadata captured to define common changes to pages
 - Generates AppClass PeopleCode assigned to Components through Event Mapping
 - Works with existing components
- **Drop Zones**
 - Area on Fluid Pages that will be bypassed by standard LCM compare process
 - Framework to add custom fields
 - Works on existing pages but is limited
 - Only used for customizations

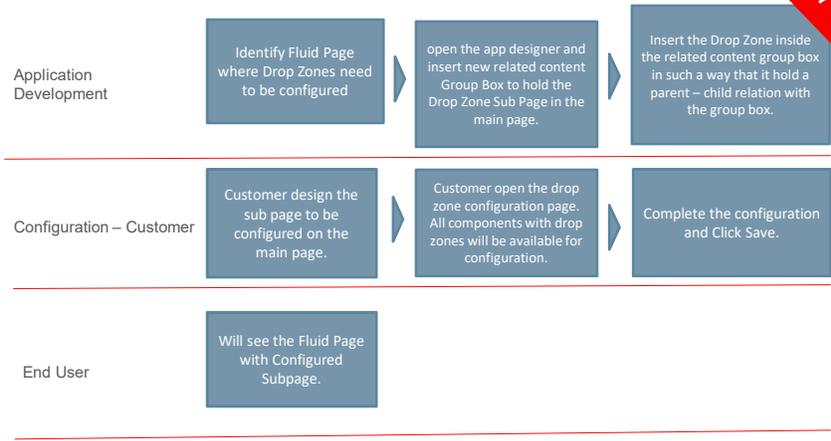

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

Configurable Drop zones

New in 8.57

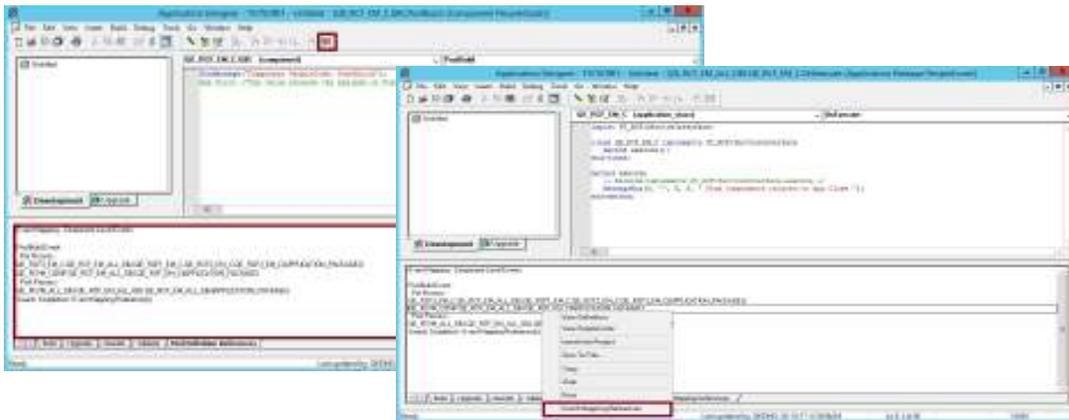

- PeopleTools 8.57 introduced new functionality to add new fields to existing page using drop zones.
- Configured subpage behave as if the sub page is directly dropped on main page.
- The Fields from the main Fluid Page and the configured Sub Page can be saved simultaneously.

Event Mapping

New in 8.57

- Event Mapping changes in 8.57

Isolate Customizations Approach

Espresso

One time effort to isolate as many customizations possible. Use Event Mapping, Drop Zones, P&FC to the fullest extent possible. Target to isolate 80% of existing customizations.

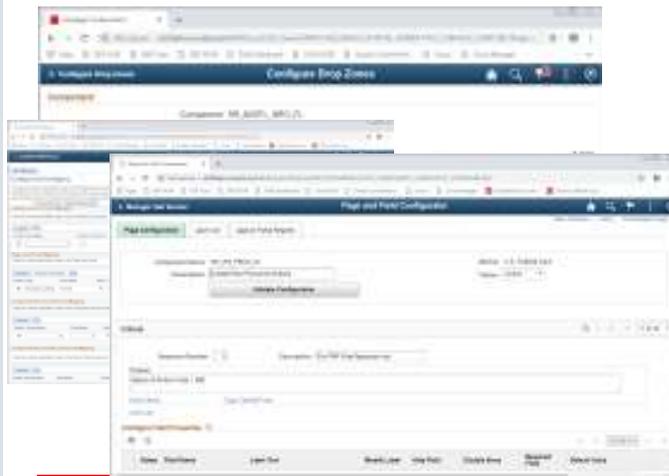

Slow Drip

Isolate the customization only when it shows as a conflict in a Change Assistant compare report. Over time, product areas most often changed and customized will be returned to generic. Schedule this effort in each PUM apply cycle.

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. | Confidential – Oracle Internal/Restricted/Highly Restricted 14

Isolate Customizations

- ✓ Custom Pages/Approvals
- ✓ Add New Fields to Components
- ✓ Change common Component Behaviors
- ✓ Add Custom Business Logic
- ✓ Optimize User Interface
- SQL Queries/AE/SQR/Cobol

Add your Ideas

ORACLE

Run Your PeopleSoft Applications in the Oracle Cloud

- **Selective Adoption in the Cloud**
 - Channel subscription to Apps and tools changes
 - Provisioning based on standard template
 - Easy access to PUM Dashboard
 - PUM Image in the Cloud
- **PeopleSoft Workloads in the Cloud**
 - Advanced network and configuration settings with Oracle Cloud Infrastructure
 - Production ready configuration
- **Pre-Production Environments in Cloud**
 - Lift and Shift Pre-production environments
 - Enhance the Maintenance Process
 - Maintain Database with Oracle RMAN using Fastconnect
- **Expand PeopleSoft Operations in Cloud**
 - Elastic scaling
 - DBaaS
 - Bare metal images
 - PaaS infrastructure
 - Self service provisioning

PeopleSoft Cloud Manager...

Migrate to Cloud

- Lift and Shift your on-premise systems to Cloud
- Automated migration
- Deploy any number of times

Manage Life Cycle

- Subscribe to Update Release Channels.
- Set up PUM environments
- Safely test and evaluate new features and customizations

Publish App Blueprints

- Customize your application deployment
- Define your own deployment topology.
- Template-ize running environments

Self Service

- One touch provisioning
- Rapid, on-demand deployment
- Manage instances - create Demo, Dev, Test or Prod environments.

Hands On Lab: Experiencing PeopleSoft Cloud Manager

Session Id: 102330 – Wednesday 7/17 9:15-10:45 Tech Center

- Get PeopleSoft Cloud Manager up and running
- Oracle Cloud Infrastructure trial account with the first \$500 waved
- Hands-on labs include:
 - Configure Oracle Cloud Infrastructure Tenancy
 - Download and deploy PeopleSoft Cloud Manager
 - Configure PeopleSoft Cloud Manager Settings
 - Create File Repository for Backups and Downloads
 - Subscribe to PeopleSoft Download Channels
- Continue to use trial account free for up to 1 month
- Seating is limited – but there are other options

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

Oracle Cloud Test Drive Series

- Learn how to migrate Oracle Apps to Oracle Cloud
- Hands-on labs include:
 - OCI Fundamentals – deploy a basic workload onto Oracle Cloud Infrastructure
 - Use application-specific cloud automation and tooling
- Enjoy an upgraded lunch experience from locally known chefs and restaurants
- For further information, visit <https://www.oracle.com/corporate/events/cloudtestdrive/>

PeopleTools 8.57 on the Cloud

- PeopleTools 8.57 initially available only on Oracle Cloud Infrastructure
- PSFT Cloud Manager automates PeopleTools upgrade
- Minimizes environment issues and lets us focus on content
- DPK Downloads for on-premises environments now available
- Same version as On-Premises
- No change to support policy

This is not PeopleSoft or PeopleTools as a Service

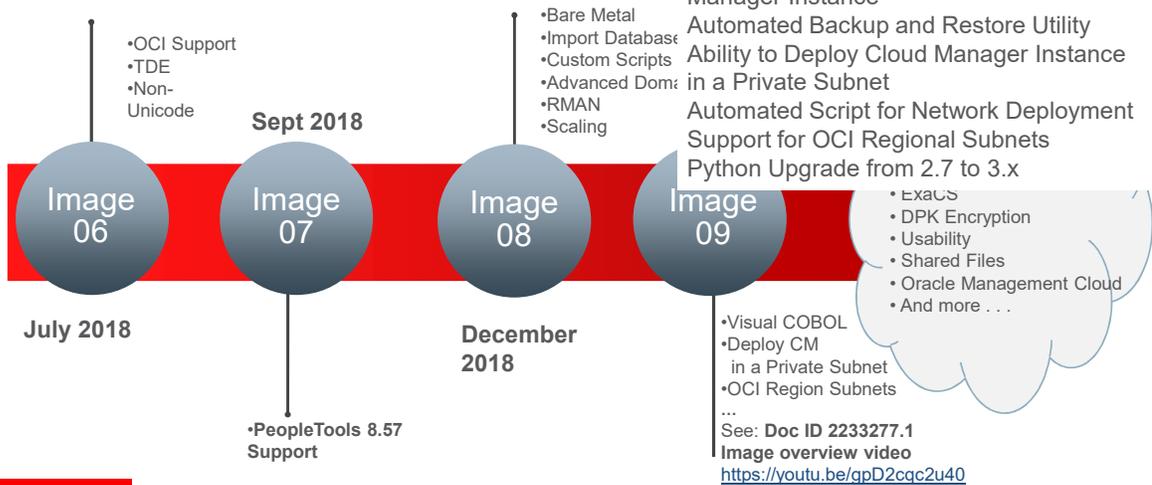

Oracle Cloud Infrastructure (OCI)

PeopleSoft Applications with PSFT Cloud Manager

Oracle Cloud Infrastructure	Other Clouds
Automated Lift and Shift	Manual migration
Automation PeopleTools patch and upgrade	Manual application of patch and upgrades
Automated setup of Selective Adoption environments	Manual download and setup of PUM environments
Automated application patching	Manual application patching
Automated cloning and self service provisioning	IT process to provision
Uses Oracle DBaaS, RAC, ExaCS	Not available
Automated setup for monitoring using OEM	Manual setup required
Oracle products on Oracle cloud for seamless integration	Mix and match technology stack
Configurable networking capabilities	Limited availability

Automate Lifecycle Processes

- PeopleSoft Update Manager

- PeopleSoft Test Framework

- Change Assistant

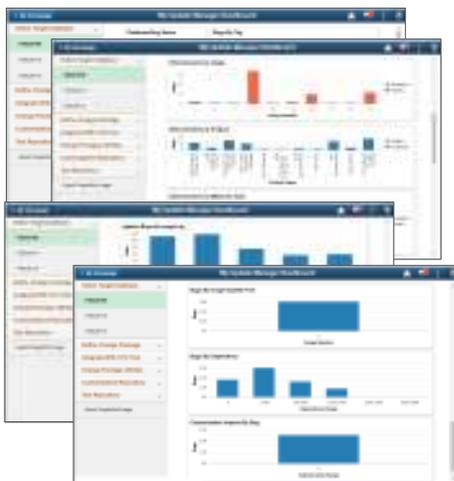

- Application Data Sets

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

PeopleSoft Update Manager – Service Level Analytics

- How current is my system?
- How current are each of the products I use?
- Are there critical Legs/Regs that have not been applied?
- Are there new enhancements in the products I use?
- Are there language changes to apply?
- What is my historical record for taking change?
- What is the dependency outlook?
- How difficult will it be to take change based on customizations?

ORACLE

Copyright © 2019, Oracle and/or its affiliates. All rights reserved. |

PeopleSoft Update Manager

New Analytics

- Bugs by Language
 - Quickly view/select language bugs
- Bugs by Image Applied From
 - Insight into when maintenance was applied
- Bugs by Dependency
 - Categorize bugs into sections based on the number of dependencies
 - Insight into the size of applying change
- Customization Impacts by Bug
 - Categorize bugs into sections based on customization impacts

PeopleSoft Update Manager – Cumulative Feature Overview Integration

The screenshot shows the 'Integrate With CFO Tool' workflow in the PeopleSoft Update Manager interface. It includes a sidebar with navigation options and a main content area with the following steps:

- Select Target Database:** A form with fields for 'Database' (460CST10) and 'PeopleTools Release'.
- Step 1:** A step that generates a file for upload, with an 'Export Applied Bug Report' button.
- Step 2:** A step that exports a Change Package to the CFO Tool, with an 'About CFO Export File' button.
- Define Change Package:** A form with fields for 'Author', 'Package Name', and 'Package Description', with a 'Launch the Define Package Wizard' button.

- Export maintenance applied
- Import into the CFO
- Create Change Package from CFO

Command Line Automation

- Complete command line automation to
 - Define change package definition
 - Create change package
 - Apply change (manual steps can be overridden)
 - Test change with PTF

```
changeassistant [-MODE mode of the CA action (Required)]
                [-MODE USE = Update manager Mode]
                [-ACTION action name (Required)]
                -ACTION ENVIMP = Import Environment
                -ACTION ENVCREATE = Create Environment
                -ACTION ENVUPDATE = Update Environment
                -ACTION PREAPPLY = Apply PRP
                -ACTION PTAPPLY = Apply PTP
                -ACTION PTLAPPLY = Apply PTU
                -ACTION UPDAPPLY = Apply UPG
                -ACTION CPAPPLY = Apply Previously Created (non-PRP) Change Package
                -ACTION DLTAPPLY = Apply Tools Delta Package
                -ACTION TDMAPPLY = Apply Transition Delta Package
                -ACTION RFLAPPLY = Apply Required For Upgrade Package
                -ACTION CPREDEFINE = Define a New Change Package
                -ACTION CCREATE = Create Change Package
                -ACTION UPLODGT = Upload target info to PUM source
                -ACTION EMPVAL = Validate EMP Settings
                -ACTION OPTIONS = Set general Options
                -ACTION EXPCFG = Export configuration
                -ACTION IMPCFG = Import configuration
                -ACTION UPXCUSTDATA = Upload Customer Metadata And Test Data
                -ACTION EXPCUSTDATA = Export Customer data from existing PUM Source and save it as a data file
                -ACTION IMPCUSTDATA = Import Customer data from the selected data file to the New PUM Source
```
